

Adobe Commerce

eCommerce shopping cart plugin (formerly Magento)

Fortis Plugin for Adobe Commerce (Magento)

Enable merchants to offer a seamless and secure payment processing experience for their customers on the Adobe Commerce (Magento) eCommerce store with the Fortis Platform.

The Fortis Difference

Customizable Payment Page

Create a unique payments page for your customers using the Elements iframe to adjust appearance and layout.

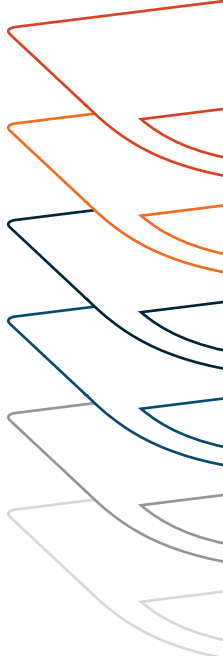

Increased Security

Keep customer payment information safe through tokenization and encryption.

Seamless Payment Experience

Securely store multiple payment methods for customers, making future purchases under customer-created accounts faster and easier.

Make eCommerce your competitive advantage!
