

Simplify Payments. Accelerate Growth.

Embedded Payments for Modern Business

Fortis and BigCommerce have partnered to deliver a seamless, embedded payment solution that reduces complexity, improves cash flow, and enhances the customer experience. Whether you're processing direct-to-consumer sales or managing complex B2B transactions, Fortis helps your business operate smarter.

Key Benefits

U.S.-Based Support & Dedicated Sales Contact

Receive personalized service from a dedicated sales representative and support based in the U.S.

Custom Onboarding & Fast Approval

Benefit from a streamlined onboarding experience, including same-day account approval in many cases—so you can start accepting payments quickly.

Seamless Platform Integration

Use a single payment gateway across your BigCommerce storefront and ERP platform—such as Sage, NetSuite, or Microsoft Dynamics—to simplify workflows, reduce manual effort, and gain visibility across your operations.

Why Fortis

Built for B2B & B2C

Supports complex workflows and business rules for both B2B and B2C models

Streamlined Operations

Reduce manual tasks and automates reconciliation

Customer-First Service

Dedicated support team, onboarding guidance, and proactive insights

What You Get with Fortis + BigCommerce

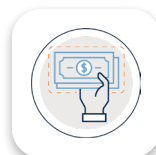

Multiple Payment Options

Accept credit cards, ACH, and digital wallets in a secure, PCI-compliant environment.

Tailored Pricing

No hidden fees or surprises—just straightforward fair pricing options tailored to your business.

Next-Day Funding

Improve your cash flow with next-day funding options at no additional cost.

Chargeback and Fraud Protection

Leverage built-in tools and expert guidance to help reduce disputes and safeguard your revenue.
