

Payments Simplified.

For Chiropractors

Recurring Payments

Custom automatic payment plans. Sends automated email with secure paylink for new card info if a payment declines.

Custom Reports

Create, save, and share user-friendly reports, allowing you to track and export data on your terms.

Mobile App

Accept payments from anywhere—whether in-office or on the go—at no extra cost.

Ongoing Support

Dedicated professionals are available via chat, email, or phone to help you maximize the platform's capabilities.

Paylink

Send payment links via text or email, with the option to securely auto-store cards for future use.

Quick Invoice

Easily collect past-due balances and fees using secure electronic invoices. Add files and notes, and set invoice notifications.

Shared Card

Add a saved card under a primary (parent) account and automatically share that card across related contacts.

Split Payments

Split a payment across related contacts for one-time or recurring payments, and auto-post to multiple patient ledgers.

Sync/Auto-Post

Payments auto-post to your EHR, increasing efficiency and minimizing human error.

Web Payments

Create customizable payment forms that can be shared through text and email, or embedded on web pages.

Stored Card Vault

Securely store multiple payment methods with assigned names, easily sharing them across patient accounts as needed.

Card Account Updater*

Cards are automatically and securely stored when a card expires or is re-issued to reduce declines.

ChiroCalculator*

Create compliant financial care plans that automatically calculate fees, discounts, and payment amounts.

Inventory*

Full-service inventory management system to track and sell products and services using any barcode scanner.

 = *Features that require separate sign-up. Additional fees will apply.
